

Discussion Questions***Topic Talk***

1. Define the following words: *cure, stem cell, donor*
2. Is there a cure for the woman's condition?
3. What makes the condition of the woman more difficult?
4. Does the campaign help raise awareness?

Express Your Thoughts

1. What do you know about stem cell therapy?
2. Research shows that cells from younger donors lead to more successful transplants. Doctors request donors in the 18-44 age group 90% of the time. Would you be willing to donate? Why? Why not?
3. Are the advanced medical treatments at present already capable of curing rare diseases? Why? Why not?
4. When do you think race/ethnicity becomes an issue?
