

At the end of the lesson, the student will be able to:

* tell similar situations happening in the passage.

Passage

A young man gets on an elevator and goes up.

As the elevator climbs a few floors, it stops for a young woman's ride.

She steps in and the elevator quickly moves up until the elevator squeaks and ceases to move.

Could not do anything, the young man and woman introduce

themselves to each other.

Not for long, the conversation turns romantic but was cut short as the elevator moves up again.

The woman feeling hungry and the man thirsty, both decide to go out for a date.

Very intimate with each other, they eventually fall in love and decide to get married.
